Gen. Burton Says Suspended List of Members is Very Large-Gen. Burrows' Report.

Toledo, Ohio, Sept. 3.-The morning session of the G. A. R. encampment today developed opposition to Salt Lake City in the contest for the next encampment, despite that she had no active rivals in the convention. There was a slight resurrection of talk about Atlanta as a possibility, and a decided sentiment in favor of going to Washington, D. C., although the department has stated officially that it does not care for the honor.

The morning session adjourned at 1 e'clock this afternoon until 4 o'clock with the selection of the next place for the encampment the special busi-

Nevius of New Jersey, former Gov. Van Sant of Minnesota, and L. T. Dickason of Chicago, are candidates, and the selection of a place for the next encamp-ment. Salt Lake City appears to be the only contender, other aspirants having dropped out earlier in the week. Gen. Kent Hamilton of Toledo, who was chairman of the local committee of arrangements, will be chosen senior vice commander.

COMMANDER BURTON'S REPORT. Commander Burton, after congrat-ulating the members of the organiza-tion upon the success of the encamp-ment, said:

The commander-in-chief congratulated the members of the Grand Army upon the passage of the Sulloway bill in April, 1908, which grants a pension to every honorably discharged soldier of the war of the Rebellion who had served 90 days or more, and who had reached the age of 62 years, a pension of \$12 per month, and to the widows of such soldiers a pension of a like sum.

Eloquent tributes were paid Commander Burton to Thomas G. Lawler of Rickford, Ill., past commander-inchief of the Grand Army, and to Daniel R. Lucas, the past chaplain of the organization, who died last No-vember in Indianapolis.

IRRITATED BY GERMANY'S COURSE

Aloof from Mulai Hafid for The Present.

Berlin Authorities Express Wonderment at Agitation of French and English Newspapers.

London, Sept. 3 .- It was learned today that the British government holding aloof from Mulai Hafid, the new sultan of Morocco, for the present, but that it proposes to recognize him in due time. British officialdom is irritated by the course adopted by Germany which it regards as an attempt to gain influence over and the good will of Mulai Hafid by stealing a march on the other powers. Consultations are now going on between Great Britain, France and Spain and there is no doubt but that Great Britain and France will act together and probably insist that Mulai Hafid give promises to carry out the obligations of Morocco to the powers before they recognize him.

WHY GERMANY ACTED.

Berlin, Sept. 3 .- The action of Germany concerning Morocco, it was explained today, is limited to the suggestion to the signatories of the Algeciras act that the time has arrived to recognize Mulai Hafid as sultan of Morocco.

Official wonderment is expressed at the agitation of the French and Eng-lish newspapers over the occurrence. They act as though Germany had done something outside her privileges in-stead of something that one of the signatory powers must do if the Moroccan situation is to be cleared up. Mulai Hafid has informed the powers on several occasions that he would fully observe the terms of the Algedras agreement and he doubtless will repeat these pledges if to do so is regarded as a necessary preliminary to his recognition.

his recognition.

German trade in Morocco is suffering by the continuance of disorder there, it was further explained today, and Mulai Hafid and his lieutenantand Mulai Hafid and his neutenantgovernors have failed to recognize the
rights of persons under German protection. Consequently, the German
consul at Tangier, Dr. Vassel, has gone
to Fez to straighten out these difficulties. France, some time ago, sent
a skilfull and experienced agent to the
court of Mulai Hafid, where he since court of Mulai Hafid, where he since remained, fooking out after French in-terests. This envoy is an Algerian in

the French consular service.

It appears here that the French government desires to make certain private arrangements with Mulai Haild before coming out in support of the legitimacy of his claim to the sultan-

Another probable cause for the dis-satisfaction in Paris, is that certain French interests made loans to Abd-el-Aziz since the beginning of the civil el-Aziz since the beginning of the evil war, and now they would like to per-suade or compel Mulai Hand to take over responsibility for these transac-tions. From the German point of view, this is unjust.

St. Louis, Sept. 3 .- Chief of Detectives Gill of East St. Louis, and Patrolman Ransome Paine were shot at Woodstock while they were trying to trap burglars in the home of Philip Woolf, treasurer of St. Clair county,

from the Woolf home to the effect that burglars were in the dwelling, Gill, Paine and Policeman Obermeyer hur-ried to the place and surrounded the house. Two men immediately came from the rear of the Woolf home and began to fire at the officers. The attack was so sudden and unexpected that the men had practically no chance and both fell. The burglars escaped.

At Request of St. Louis, Iron Mountain & Southern and Three Other Roads.

Order Forbids Enforcing of New 2 Cent Fare Law and from Interfering With Raising Freight Rates.

St. Paul, Minn., September, 3.-Judge Vanderventer, in the United States court, granted the injunction requested by the St. Louis, Iron Mountain & Southern and three other railroads operating in Kansas, against the Arkansas state railway commission. The injunction restrains the commission from enforcing the new two-cent-fare law and from interfering with the railroads in raising their freight rates on interstate traffic In an oral decision the court held that the testimony in the present hear-ing had demonstrated to him that the

rates proposed by the Arkansas rail-way commission were unreasonable, non-compensatory and unlawful and could not be enforced against the railroad companies. The court directed that each defend-ant give a bond, which will probably be about \$100,000 each, that they would

keep a distinct and accurate account showing the difference between the tariff charges of the railroads and what would have been charged if the ates of the Arkansas commission had

been applied.

The court made a condition to his order that it any individual or passenger suffered by reason of the rates to be applied during the pendency of the order, and if on final hearing the order be set aside, the penalties for a violation prescribed by the law might be enforced as if no injunction had been issued and due reparation made. The enforcement of these penalties, however, should not cover a period preceding the beginning of this action.

RAILWAYS AUTHORIZED TO ESTABLISH DIFFERENTIALS

Washington, Sept. 3.—In the case of the Pacific coast lumber manufacturers, the St. Paul & Tacoma Lumber company, and numerous other lumber concerns, against the Northern Pacific and 19 other railroads, also the case of the Southwest Washington Lumber Manufacturers' association against the Northwestern, Burlington and other roads, and the Oregon & Washington Lumber Manufacturers' association, the Eastern & Western Lumber company, and nine other lumber concerns, against the Union Pacific, Oregon Short Line and eight other railroads, the interstate commerce commission has authorized the railroads to establish differentials not exceeding 10 cents per 100 pounds above the rates on fir lumber between the same points. This amority is with the provision that no such differentials or a differential of less than 10 cents existed prior to Nov. 1 last, and that the differentials prescribed in the case of the Potlatch Lumber company and others, against the Northern Pacific and other carriers, must be observed. The commission says that this permission does not constitute sanction for the endorsement of the establishment of higher rates for a shorter haulthan for a longer haul in the same direction, when the shorter is included within the longer.

Oakland, Cal., Sept. 3 .- According to an announcement by the city attorney to the board of public works yesterday, the Western Pacific Railroad comjany expects to have its Oakland line and San Francisco ferry connection in operation by Nov. 1. This will mean the completion, it is said, of all state connecting links by that time as well

To no city will this news be of more nterest than to Salt Lake for this city is the eastern terminus of the Western Pacific and the point at Shich the Western Pacific and Rio Grande will effect connections. This is ample cause for belief in the dispatch for events for belief in the dispatch for events during the past few weeks have shown unusual activity in Gould circles. The bond issue of the Rio Grande was the first definite step towards a thorough awakening. Only a few days ago big Gould officials went out over the Western Pacific and while they were reticent in discussing plans for the future of the new Salt Lake-Oakland line there was much in their actions to lead the was much in their actions to lead the interviewer to believe there was a whole lot which could have been given out had the magnates and officials been

CHANGES IN DEPOT PLANS.

Plans and sketches of the proposed Gould depot were brought to this city and shown a few local officials a few days ago. These snowed that the entire terminal arrangement has been altered and enlarged. The sketch of the building resembled the old sketch in a few details, only. It seems the Gould officials decided Salt Lake is to be a bigger city than was at first dreamed so adequate terminal facilities are to be provided for the rapid grow of this so adequate terminal facilities are to be provided for the rapid grow of this city and the wonderful territory of which it is the natural center. It was admitted that these new plans and sketches were final, and that work would be started within a few days on an extensive scale and maintained on an extensive scale to make the completion of the terminals a matter of as short a stretch of time as possible. The dispatch received today furnishes the dispatch received today furnishes the

reason for the rather sudden activity.

So long have the Gould forces been in starting work on their depot and so many have the reports of work being started in full blast been that the Rio Grande depot and its erection has come to be a cause for smiles in local rail-road civiles but the activity displayed to be a cause for smiles in local rail-road circles but the activity displayed on the inside for the past several days has had every feature of being genu-ine. While the terminals cannot be built by Nov. 1, of course, the comple-tion of state links in two months will be a promise that no time is to be lost in the building of terminals. Salt Lak-ers are not to be surprised to see large ers are not to be surprised to see large gangs of workmen on the Fourth West lots any morning.

The Sait Lake link is now within a

few miles of Wells and will be into Wells by Nov. I, easily. Patches, here and there, are about all left uncovered west of Wells so spring will undoubtedly see the entire line completed, with the exception of tunnels. Temporary loops and curves will be used while the tunnel work is being finished so the completion of the tunnelless line means the inauguration of through service from this city to the water front at Oakland.

DEFEAT ACCEPTED AT BOISE GRACEFULLY

(Special to the "News.") Boise, Idaho, Sept. 3.—Those who met defeat at the state Republican nominating convention here yesterday

took it gracefully, and a general good feeling prevails. Nearly all the dele-gates left last midnight on the special train.

train.

The only changes in the forecast of yesterday is S. D. Taylor of Bonner for auditor, instead of Tucker, and Barney O'Neil instead of Heiman for state chairman. F. C. Moore of Sho-shone was nominated for mine inspec-tor, and L. H. Sweetzer of Cassia as

tor, and L. H. Sweetzer of Cassia as lieutenant-governor.

The greatest demonstration of the convention occurred when Hamer's name was presented in nomination for Congress. Almost in an instant the house was in an uproar of applause, and the Hamer boosters marched through the aisles carrying banners reading: 'Col. Tom. the man we Want,' "Tried and True, Colonel Hamer,' "Col. Hamer for Congress," "Idaho—the Biggest Little State in the Union," etc. J. O. Webster of Fre-Union," etc. J. O. Webster of Fre-mont made the nominating speech. After the uproar subsided, French was presented in nomination, and the presented in nomination, and the voting ensued, resulting in 140 for French to 163 for Hamer. At the opening of the session, French was called to the platform, and made an impassioned and eloquent speech. Burrel of Bear Lake contested the nomination for lighteenant-governorship. lieutenant-governorship Sweetzer, and Tucker of Canyon the auditorship with Taylor, the rest of the ticket went through without in most instances by acclamation.

His Invitation to Visit Salt Lake | With Judge Taft Because There May Be Rescinded This Week.

In Case Grand Army Comes Next Season All Other Matters Will Take Second Place.

To abandon at once all plans for a Wizard of the Wasatch carnival next year, and instead to go in immediately to raise \$60,000 to spend in entertaining the Grand Army of the Republic in its 1909 encampment, is the present intention of the Salt Lake Commercial club.

All that the club officials are waiting for is the official announcement that the Grand Army men are really coming, and then everything else will be given second place for the most elaborate preparations the city can possibly

It is the full belief of those who will be in charge of arrangements that Salt Lake can with the Grand Army convention do all that Denver did with the Democratic convention to attract notice to Salt Lake, encourage settlers to come, and spread a radius of praise and entrusiasm for the city among a great multitude of people.

BIG ENTERTAINMENT FUND.

"Toledo spent \$50,000 to entertain the "Toledo spent \$50,000 to entertain the Grand Army this year," declared Fisher Harris this morning, "and last year Minneapolis spent \$53,000. Naturally we shail wish to put on just a few edges of superiority over what these cities did, and therefore our funds have been estimated at \$60,000. It will be the best money we ever spent. Salt Lake is the greatest convention town in America. We have everything but the facilities to handle large crowds, and another first class hotel or two will give another first class hotel or two will give

us these. "To successfully handle a G. A. R. convention and do it right will put Sait Lake on the map as a convention center better than could any other move. It will be a great thing for the G. A. R. people to come here. The men who fought through the Civil war did so when the west was hardly thought of, when the center of national interest was so far east that the west al interest was so far east that the west practically was counted out of consid-eration. Now it will be a good thing for these veterans to march through the paved streets of a country that was just emerging from the sagebrush desert when the war was fought. But it will be a better thing for Salt Lake, and a thing that will demand the utmost unity of action on the part of all pecule.

WILL BANISH KNOCKER.

"If the convention comes, the knock er, whatever his classification, will have less of a place in Utah than ever before, and the man willing to work with his neighbor for the success of with his neighbor for the success of the big encampment will have more of place than ever. The Wizard of the Wasatch can stay in the mountains an-other year, for nothing he could do would compensate for a failure to get the most out of the opportunity afford-ed by the G. A. R. convention."

"I told him there had been no agreestatement from him. As soon as he

wanted me to give him hy version of the matter.

"I told him there had been no agreement of any kind, neither made or suggested; that there was no trouble between Judge Taft and myself; that the trouble so much talked about in the newspapers was manufactured; that I had not made, at any time, any request of Judge Taft and he had not made any, of me; that we had met on the reviewing stand and at the public meeting which we both addressed; that our conversation on the reviewing stand was only social and that which would be naturally suggested by the character of the occassion; that at the public meeting we had had no private conversation and what we had said at the public meeting spoke for the life that is all there was of it. said at the public meeting spoke for itself—that is all there was of it. I

bade him good evening and went to "I wish there could be some way found to stop the publishing of these mischief-making reports."
